COMMENT SOUGHT ON WINDSTREAM PETITION FOR CONVERSION TO PRICE CAP REGULATION AND FOR OTHER LIMITED WAIVER RELIEF

WC Docket No. 07-171

DOCKET FILE COPY ORIGINAL

COMMENTS DUE: September 24, 2007

REPLY COMMENTS DUE: October 9, 2007

On August 6, 2007, Windstream filed a petition to convert its rate-of-return (ROR) cost study areas to price cap regulation no later than July 1, 2008, and, to the extent necessary, requested limited waivers of the applicable pricing and universal service high-cost support mechanisms to enable Windstream's successful conversion.¹ Specifically, Windstream proposes that the price cap regulatory structure that would apply to its converted study areas would be based on the structural rules established in the *CALLS Order*, but Windstream would not join the pricing and universal service support regime applied to price cap carriers in the *CALLS Order*. According to Windstream, its proposal involves the following elements: (1) for converted study areas with average traffic sensitive (ATS) switched access rates that are currently higher than \$0.0095 per minute, the rates would be lowered to \$0.0095; (2) for converted study areas with ATS switched access rates that are currently below \$0.0095, the existing rates would remain in effect; (3) for special access services, rates in the converted study areas would be based on current ROR levels; and (4) for universal service support, Windstream would continue to receive interstate common line support (ICLS) for the converted study areas, but the level of support will be calculated like interstate access support (IAS) and set at a per line amount.
